#### Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? No

## Product Labeling

Do all hearing aid-compatible handsets include labeling? No

Explain: Sage Telecom primarily sells used and refurbished handsets from various phone suppliers. At the initiation of service, if a customer subscribes to a service that includes a used or refurbished handset, such customers are informed that the phone is used or refurbished as the case applies. Refurbished and used phones do not include the original user manual when they are purchased by Sage from the supplier. When a customer purchases a new phone, such phones include the original manufacturer's user guide which includes information regarding the phone rating and tips to avoid interference.

Do all hearing aid-compatible handsets that are capable of voice communication over any air interface or frequency band that does not have hearing aid compatibility technical standards under ANSI C63.19-2007 include the required language disclosing that the handset has not been rated for hearing aid compatibility with respect to such operations? No

Do all hearing aid-compatible handsets that the manufacturer also tested and found not to meet hearing aid compatibility requirements under ANSI C63.19-2011 for one or more operations that are not covered under ANSI C63.19-2007, include language informing users by clear and effective means that the handset does not meet the relevant rating or ratings with respect to such operation(s)?

N/A

Explain:

Do all handsets that are capable of use for Voice over LTE, and that were certified for inductive coupling capability under ANSI C63.19-2011 without being tested for inductive coupling capability over VoLTE, include language disclosing that they were not tested with respect to this operation?

N/A

Explain:

Do all handsets that meet the criteria for an M3 rating by allowing the user to reduce the maximum power for GSM operation in the 1900 MHz band include the required disclosure?

Explain:

## Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? No

Website address:

Explain: The Sage public website is in the process of being updated to include a list of all hearing aid-compatible models currently offered, the ratings of those models, and an explanation of the ratings system. The updated list will include the levels of functionality, the level under which each hearing aid-compatible model falls, and an explanation of how the functionality of the handsets varies at the different levels.
